

Qatar Cool is Recognized for HR and Development Practices

Qatar District Cooling Company, also known as Qatar Cool, a major district cooling company in the region, was announced the winner of the “HR Team of the Year Award” and the “Excellence in Learning and Development Award” during the 2015 MENA HR Excellence Awards Ceremony, held at the Sofitel-the Palm in Dubai, from the 20th to 21st of May.

The awards ceremony was part of the 2015 MENA Human Assets Expansion Summit, which celebrates leading employers and HR practitioners for their outstanding achievements and drive for impactful human capital strategies. It gives all organizations an opportunity to showcase their initiatives and be recognized and acclaimed for excellence in the area of human capital management and development.

The summit tackled many important issues in human resources management such as innovation in recruitment and talent retention. It also provided a platform for panel discussions on the obstacles of creativity in the HR field. Winning such prestigious awards is a great milestone in Qatar Cool’s history, especially considering the importance of the summit and the standard of participants.

It is worth mentioning that Qatar Cool was judged on a variety of topics such as strategic planning, talent attraction and retention and performance and rewards. On the occasion, Yasser Salah Al-Jaidah, Chief Executive Officer at Qatar Cool comments: “We are proud to receive such recognition at such a prestigious summit. The awards are a demonstration of our commitment to perfecting our operations in all areas of our business starting from HR and talent development to other business support disciplines and operational practices”.

Al-Jaidah also stressed on the importance of adopting best practices in an effort to improve efficiency of internal business processes that support the main operations of any business.

Qatar Cool has won multiple international awards, including the “Best District Cooling System in the World Award” for both districts served, from the International District Energy Association (IDEA). It was also recognized for its energy conservation efforts in industrial buildings in Qatar, by Kahramaa’s “Tarsheed”, a national campaign to improve water and energy efficiency. Most recently, the company was recognized as the “Best District Cooling Utility Provider of the Year” by Climate Control Middle East.
